

Len Cuthbert (LenCuthbert.com) is the founding director of Fridge Door Live Theatre Company (FridgeDoorLive.com) which was created in 2006 to offer Summer Theatre Camps for community youth and children. It continued to grow to offer up to 8 weeks of camps in the Summer in four cities and theatre programs during the school year. FDLTC has also offered live productions of Len's original plays annually (OnStageLive.ca). The theatre company became a nationally registered not for profit organization in June 2011 and has offered tax receipts under the umbrella of the charitable status of AGO. During the pandemic, Garage Theatre Canada was created, and nine new short plays were produced, recorded and made available for stream on demand at www.GarageTheatre.ca.
