

## ***Harvey & the Extraordinary* — Synopsis**

Harvey & The Extraordinary invites you to follow the trail of painted cardboard signs and join eight-year-old Mimi and her hamster Harvey for their professional and not-so-silent debut! Come on in and grab a bag of popcorn! With big dreams to join the circus, Mimi sets out to put on her very own mime show (in her garage) for a special guest of honour. Though Mimi's show doesn't exactly go as planned, the extraordinary audience members are sure to laugh, dance and play along in her interactive, immersive piece. With visits from Mimi's Tony Hawk obsessed brother Dominic, and ex-best-friend Patricia, and more Harvey & The Extraordinary explores the joy and heartbreak of childhood and what it means to maybe, just maybe, be simply ordinary.
