

# ***Ten Creative Ways to Dispose of your Cremains***

## **Synopsis**

Lucy has bed bugs and a five o'clock shadow on her legs. Bennet eats popsicles for dinner and has nine dollars in his chequing account. It's a millennial match made in Toronto. They meet where everybody does: at a loud and annoying party. What they do know by the end of Friday night is that they'd rather not see each other ever again. What they don't know, is that by Saturday evening, they'll somehow end up in Trinity Bellwoods with an urn-full of ashes and some gunpowder.

A story about everything and nothing, *Ten Creative Ways...* is lovingly dedicated to all those people for whom emojis are the most comfortable form of communication.
