

# A ChihSang Production

A ChihSang Production creates heartfelt storytelling experiences that blend humour, vulnerability, culture, and emotional honesty. Founded by creator and storyteller ChihSang, the company focuses on original works that explore identity, immigration, relationships, grief, healing, and the search for joy in everyday life.

Drawing from lived experiences growing up between Chinese, Trinidad and North American cultures, A ChihSang Production aims to create performances that feel personal yet universal — stories that invite audiences to laugh, reflect, and reconnect with themselves.

At the center of many productions is the recurring metaphor of bubbles: fleeting moments of beauty, wonder, and human connection that remind us to slow down and appreciate life before it drifts away. This philosophy shapes the company's creative voice — honest, playful, emotional, and deeply human.

From solo theatre performances to digital storytelling and community conversations, A ChihSang Production believes meaningful art does not need to be grand or perfect. Sometimes the most powerful stories are simply truthful ones told with heart.

Current productions include *My Journey Back to ChihSang*, a solo Fringe show exploring culture shock, masculinity, emotional burnout, and the rediscovery of joy.
