

T&C PRODUCTIONS PRESENTS:
IMAGINED LOVE

A woman who feels isolated from family, friends and herself develops an unexpected companion for connection. As she seeks comfort from an AI Chatbot after a heartbreak, things start to get a little too real...

Imagined Love has its world premiere in a theatre that suits this show perfectly... The Sweet Action Theatre! We are in a moment where it feels like the robots are taking over. AI is EVERYWHERE! In fact, we could have asked AI to write this show for us (We didn't, we swear!). Instead, we are looking to explore the connection we have to AI, specifically when we are no longer in connection with each other. Inspired by a podcast on THE DAILY <https://podcasts.apple.com/ca/podcast/she-fell-in-love-with-chatgpt-an-update/id1200361736?i=1000743300165> and actual real life experiences, this play explores how we use AI for connection and what gets lost in translation.

Imagined Love is the world premiere debut play of Tamara Almeida, a first-generation, bilingual performer, writer, and producer whose career spans television, film, voice, and theatre. Her credits include the Emmy Award-winning series *Jane* (Apple TV+), *Ghostwriter* (Apple TV+), *Let's Go Luna!* (PBS Kids), and the *Total Drama Island* reboot (STACKTV/Cartoon Network), as well as leading roles in several television films. After years both in front of and behind the camera in various roles, Tamara is thrilled to be pursuing a lifelong dream of creating theatre. She is currently an apprentice with Modern Times Theatre Company in Toronto.

Like so many artists before her, rather than waiting for the perfect show to come along, she has written one for herself. The show stars Tamara Almeida and Colin A. Doyle (Dora & TO Theatre Critic Award Winner, *THE FLICK*, *MR BURNS*, *MUNDANE MYSTERIES Outside the March*, *MONDAY NIGHTS LUMINATO/Theatre Centre*, upcoming *JACKPOT TWINS* Mirvish Theatre to name a few) and directed by, TO Fringe Royalty Amy Lee (Dora Award Winner, *APPROPRIATE - Coal Mine Theatre*, *LOVE YOU FOREVER & MORE MUNSCH - YPT, MTYP*, Co-creator *MORRO & JASP*,)

As our digital world grows and we continue to rely more and more on AI, computers, self-driving cars, robots, etc., the question becomes should we and at what cost?!?!?!?

Imagined Love
