

## **ANYWHERE**

### **Synopsis**

A young businesswoman returns to her AirBnB to find that her host has been waiting up for her. What started as a cordial relationship between strangers begins to steadily escalate into a tense and unnerving battle for control.

In this new thriller by Dora-nominated playwright Michael Ross Albert, two women face off against each other in a struggle for meaning, connection, and power.

Featuring a cast and creative team of indie theatre heavy-hitters, *Anywhere* is an exciting new drama that questions how we can genuinely connect in a cynical, digital age.
