

Gerry's Imaginarium

TORONTO
FRINGE
KIDSFEST

***Gerry's Imaginarium*, a whimsical show about architecture and dance, teaches kids that creativity is for everyone - no matter their age or occupation.**

The Neighbourhood Follies are ecstatic to be presenting their latest show, ***Gerry's Imaginarium*** this July, as part of the Toronto Fringe KidFest. With previous iterations held at Woodbine Park and the Toronto Harbourfront docks, this will be their first indoor production at Young People's Theatre. *Gerry's Imaginarium* is an adaptation of previous performances, with a fresh story, and new music & choreography.

Featuring **Ajeuro Abala** (aspiring architect) as Gerry, **Alie Rutty** (producer/choreographer) as Lottie, and **Tessa Rusgnak** and **Matthew "Zach" Zacharias** (composers) as the Troubadour musicians, the story follows a struggling theatre architect and his inspiring encounter with a dancing sprite who helps him to think outside the box. With the help of our audience (psst: come ready to dance!), will Gerry succeed in building the theatre of his imagination?

For the first time, the Follies have welcomed aboard director **Micaela Morey** who holds a Bachelor of Music and a Diploma in Theatre Performance. Micaela has played in pit orchestras across Ontario and served as the Artistic Director for Pirate Life Theatre and Theatre Arts and Dance Academy. Additionally, the Follies welcome **Willow Edwards** as stage manager and assistant director to help structure this new production., who brings 13 years of improv and clown experience, including stage managing and assistant directing *1 Santosh Santosh 2 Go* at the 2024 Toronto Fringe Festival.

The Neighbourhood Follies is a devised clown and dance theatre troupe founded in 2023. A ragtag troupe of philosophers, photographers, dancers, musicians, and actors, the Follies bring their eclectic experience to bear on every project.

Join us at the Toronto Fringe KidsFest for a tale of joy and whimsy sure to leave both kids and their parents inspired to dance their way home!
