10,000 Digits of Pi at the 2022 Toronto Fringe Festival

Vinay Sagar will recite 10,000 digits of Pi (3.141592 ...) over the course of 8 shows and get punished every time he makes a mistake. Punishments will be decided by the audience!

The show is a combination of the art of **clown** and the principles of **math** - something that is rarely seen in theatre! Each show Vinay will start reciting where he left off in the previous show, thus leading to more mistakes and punishments in the later shows. ***Every show will be different!!***
