

Synopsis

ODD SEED is a digital show that features 8 miscellaneous characters and the anthology film that they star in. The film displays an array of dance, acting, comedy, and illustrations. A kaleidoscope of imagery and performances, *ODD SEED* is a show that takes you on a non-stop, bewildering journey. The show breaks away from a linear narrative and instead focuses on individual short stories that feature odd interactions of foolish characters in striking settings.

The digital show is presented in two parts. Part One is the prologue of the piece that familiarizes viewers with the 8 characters featured in the film through casting interviews. The interviews take place in a dark, interrogation-like setting, which present a raw, awkward, and unapologetic introduction to the characters. It's here that we meet Mandy, Valda Shmorgington, Petra Paulina Patricia, Deb, AMBĚHR, Miss Lemontine, Adrianne Voxxman, and Jessalina The Ginger Cat.

Part Two is an anthology film that features each of the characters in different configurations, settings, and scenarios. The film is made up of 8 short chapters that explore their own individual narrative and directive style. The first chapter, titled "Dance Teaches You Discipline", is a unison dance piece that features all 8 characters moving in complete synchronization with deadpan faces. The second chapter, "VERSUS", features two characters in a movement-only scene inspired by slow motion sequences in action movies. The third chapter, "The Group Project", is *ODD SEED*'s take on a mockumentary, where three characters are working on a children's theatre festival show and the deadline is causing an extreme amount of tension. The fourth, "The Social Dilemma Network", is entirely shot on cell phones and is a satirical take on society being doomed due to our dependency to social media. "INTERMISSION", the fifth chapter, is a glimpse at each character in between takes and behind the scenes in their respective chapters. Nearing the end, "A Dramatic Conversation", stars two distinctive characters sitting across from each other at a table arguing and attempting to resolve an issue only with movement. The seventh chapter is a comical take on a horror film, titled "When You Wake Up In the Middle of the Woods and Can't Escape the Feeling of Imminent Death". Lastly, in "Fuck, How Long Have We Been Here?", all 8 characters are together again, but are transported to a warped, trippy, and slow motion single take sequence at a house party.

ODD SEED is an online performance journey like no other. Be ready to be amused, confused, and removed from the norm.
