

# Assembly Suggested

*The instructions were clear. The emotions were not.*

**Assembly Suggested** premieres July 2nd 2026 at the Toronto Fringe Festival.

Joule is convinced that if she says the right things and follows the right steps, she can hold her life together. Framed through the narrative device of an increasingly absurd instruction manual for assembling an IKEA-style chair, *Assembly Suggested* traces an intimate friendship as control, memory, and devotion begin to unravel. Blending surreal humor with emotional precision, the play explores the stories we tell ourselves to make disconnection feel survivable.

“*Assembly Suggested is a chaotic, sharply funny, and quietly devastating play about closeness, misalignment, and the stories we tell ourselves to keep something alive long after it's already changed.*

— Rymn Wadhwa, *Writer & Director*

## About Rymn

Rymn Wadhwa is a writer and director based in Toronto. *Assembly Suggested* is her debut theatrical work, premiering at the Toronto Fringe Festival. From her start in the music scene in the early 2010s as a performing bassist to stand-up comedy today, her multidisciplinary artistic background informs her approach to stage direction and storytelling. Her professional background in industrial engineering and her love of chess shape an interest in systems that can be solved, while love, connection, and grief resist resolution. This tension sits at the center of *Assembly Suggested*.

“*You can teach structure and stage presence, but you can't teach perspective. Rymn is a real writer, and this debut feels less like a beginning and more like the first time the rest of the world is catching up.*

— Brandon Sobel, *Co-Owner of Backroom Comedy Club*
