Once You've Found It

Weaken the grasp of your inner darkness.

Reverie Theatre is joining the 2022 Toronto Fringe at the Ada Slight Hall this Summer! *Once You've Found It* is a touching, contemporary drama about overcoming the obstacles of depression. What lives in Bruce's mind is a deep shadow, an unwelcome guest—the Dark! As Bruce struggles against his foe, the answer may have been with him the whole time—what's important in life and what matters the most.

This is Reverie Theatre's premiere feature theatrical piece that was first presented in 2015. It has grown and developed over the years connecting with audiences across Canada. Utilizing projection, mask and movement, this fictional piece has been an exploration of the medium and the creator's personal struggle.

Created by the founder of Reverie Theatre, Donovan Jackson, this piece has been presented at other Fringe Festivals from the prairies all the way to P.E.I. *Once You've Found It* had developed over the years with multiple directors, movement coaches and music composers. Joining this production is Rex Tang as stage manager and music composer. After presenting in different parts of Canada, Reverie Theatre is very excited to finally present in their hometown, Toronto, after a long break.

Once You've Found It is a multidisciplinary piece that goes beyond the walls of conventional theatre. It is a meaningful experience that you will not want to miss at this year's Fringe.
