

Blue Glass Theatre

The company's aim is to create female led work, bringing voices and life to work with interesting narratives. The majority of the written work created within the company is written non-gendered and non-aged to allow the best person to be cast in the role.

Blue Glass was founded in 2018 and since then has performed in fringe venues in London, Brighton Fringe Festival online and in person. Most recently Blue Glass Theatre produced a week of comedy at a London Fringe Theatre with a number of rising stars of comedy.
